4. **Cart items Edit/Cancel:** Our Amazon's shopping cart system allows users to easily modify their orders before completing their purchase. If a user decides they no longer want an item in their cart, they can simply click on the "Cancel" button next to the item to remove it from the cart. This will update the total cost of the order accordingly. In addition to removing items, users can also modify the item they want to purchase and the quantity of items in their cart by adjusting the quantity of each item. They can also change the destination of the order. This is useful if a user wants to purchase more or fewer of a particular item than they originally added to their cart and change the destination.
5. **Clear the cart:** User can clear all the items in their shopping cart by clicking clear cart button.
6. **Check order status:** User can see all their order status by clicking "check order status" button in home and buy page.

My Orders
